

"CANNONISM" WILL BE ONE BIG ISSUE IN THE CAMPAIGN.

"Conservative Insurgents" Say They Will Save Speaker for Slaughter at Fall Election.

THEY COUNT ON ROOSEVELT

Only Fear is That Speaker Will Continue Battling Insurgents So Hard That Radicals Will Insist on Firing Him Out of His Job.

United Press Telegram. WASHINGTON, May 25.—"Cannonism" will be one of the big issues in the coming Congressional campaign if the "conservative" insurgents can restrain the radical faction from launching "Uncle Joe" from his seat on the rostrum. The conservative element of the insurgents want to save Cannon for use as the one big issue in the fall campaign and fear that if he is unseated they cannot adopt anti-Cannon platforms to such good advantage.

The conservatives say, however, if Cannon continues to bat the insurgents as he did in his New York speech, they will be unable to restrain the radicals from attempting to unseat him at this season.

Cannon and the House organization are suspicious of the insurgents and the appearance of Representatives Norris or Murdock on the floor is the signal for the Regulars to be on the alert. It is keeping Whips Dwight on the anxious seat these days.

The progressives hesitate to overthrow Cannon now because they believe this would result in a deadlock. Every day is valuable in the coming fight at the polls.

The House Republicans will caucus tonight to consider the postal savings bill and pounce the Republicans to its support. The Senate has passed the bill. It is predicted that the House bill will be tattered and torn at the end of the caucus. Ten of the insurgents are not expected to attend the caucus.

Night Police Will Try Doors of the Stores

That the tax payers may derive greater benefits from the cost of maintaining the police force, Chief George Hetzel, in connection with Burgess J. L. Evans, has notified his officers that the ordinance requiring them to try all doors of business houses after closing hours must be enforced. This ordinance was passed during the term of the late J. Emmett Stillwagon as Burgess, but of late years it has been ignored.

After talking the matter over with the Burgess and securing his approval, Chief Hetzel gave orders for the night men to begin their duties this evening.

Police men on night duty will be required to try both the front and rear doors of all business establishments and report any that might be found unlocked.

Chief Hetzel knows from years of experience as a night watchman that this is a matter of great protection to the business men. He has also learned that one man cannot cover the entire town. When Hetzel was a watchman he would not look after the West Side or Pinecroft districts because it would have taken him away too long from the center of town. He believes that the police on night duty can perform this work without adding to their burdens.

PENNSY CHANGES.

None is Made on the Southwest Branch This Time.

No changes are made on the Southwest branch of the Pennsylvania railroad under the new schedule which goes into effect next Sunday. On the Monongahela division a new Sunday train, No. 237, will be added to leave Rice Landing 6:02 A. M., arriving at Brownsville 6:45 A. M. Sunday train No. 238 will leave Rice Landing 9:27 P. M., arrive West Brownsville 10:05 P. M., Sunday train No. 137 will leave Uniontown 7:10 P. M., arrive Pittsburgh 10:50 P. M. Sunday only train No. 220 will be added to leave West Brownsville 5:07 A. M., arrive Rice Landing 5:19 A. M. Sunday only train No. 136 will run through to Rice Landing, arriving at 9:17 P. M.

Smashup at Mt. Braddock. Several box cars left the D. & O. main track at Mt. Braddock yesterday afternoon and ran into a car load of flour on the W. J. Railway siding. The cars were badly demolished and a portion of the flour was scattered about the scene of the accident.

A Local Firm Gets Contract at New Salem

The Connellsville Construction Company has been awarded the contract for a two-story brick and terra cotta bank building to be erected at New Salem. The building when completed will be occupied by the First National Bank. A. P. Cooper of Uniontown was the architect. The contract price is between \$10,000 and \$11,000.

The company has just completed a new brick veneer residence for J. L. Fritsch, chief engineer for the West Penn Railway Company and a frame house on Vine street for Mrs. Mary L. Hicks.

A stone compressor for the H. C. Frick Coke Company at Newcomer Station was recently completed and several new residences are under construction.

RAINS FOLLOWED THE HOT WEATHER

Steady Downpour Set in This Morning After a Brief Shower—Good For Gardens.

Following the sultry weather of Sunday and Monday the rain started last night and has continued intermittently ever since. The threatening clouds burst forth in a heavy downpour about 10:30 this morning and the shower continued for the balance of the morning. Traffic on the west side of Pittsburgh street between Main street and Church place, was impeded by the new work put in when the iron coverings were taken out by the Street Committee. John Enos, who housed the job, says that such a great amount of water will not sweep down Pittsburgh street from Fairview avenue after the dirt and gravel where the Lutheran Church is being built has been removed. Apparently every rain makes the crossing impossible for pedestrians.

The temperature this morning was 61. Yesterday morning it was 67 and 69 in the afternoon. The river rose over night from 2.3 feet to 2.55.

Epworth League Delegates Chosen to a Convention

At the regular meeting of the Epworth League of the Methodist Episcopal Church held last evening at the home of Miss Elizabeth Williams, Miss Helen Gamble, Miss Irene Holand and Charles Wolf were elected delegates to the annual convention of the Epworth League of the Mecklenburg district to be held June 8 and 10 at Scotland.

The following musical program followed the business session: Vocal duet, Catherine and James McElroy; violin and piano duet, Misses Sara McElroy and Jennie Grossland; recitation, Miss Elizabeth Williams; piano and violin duet, Misses Sara and Laura Mielat. Refreshments were served.

SAYS GIRL SLIPPED.

William Seyler Goes on Stand in Jane Adams Murder Case.

MAY'S LANDING, May 25.—William Seyler testified for the defense today. He told of visiting the pier the night Jane Adams died. The State will call three witnesses in rebuttal both sides expect to rest this afternoon.

A duplicate of the railing and pier was erected in the court room for the defense, which will attempt to prove that the girl stumbled and fell into the water.

May Talk Temperance. UNIONTOWN, May 25.—The local option people have written all the ministers of the county asking them to preach temperance lectures next Sunday, the last before the primary.

Building Largest Battleship. QUEEN CITY, Mo., May 25.—(Special)—The keel of the Acornado, the largest battleship in the world, was laid here today. It will cost the Argentine Republic \$11,000,000.

New Patient at Hospital. Frank Latch was admitted to the Cottage State hospital last evening with a slight scalp wound. He was caught by a fall of slits in the W. J. Railway mines at Revere.

BITTEN BY DOG!

Pearl Strawn, Aged 5, is Injured on Hand by Canine. Pearl Strawn, aged 5, daughter of Mr. and Mrs. P. P. Strawn, of Cottage avenue, was bitten on the hand this morning by a fox terrier owned by G. G. Armstrong.

The physician, who dressed the wound, directed that the dog be confined for a period of two weeks in case serious developments set in. The bite was not a severe one and no serious consequences are feared.

DISPUTE OVER WILL IS HEARD.

Walter Laughead Claims Sister Used Undue Influence With Mother.

STRONG DENIAL IS MADE

The Sister Declares That Brother Was Cared for by Father and Received Valuable Farm—Her Share Only Comes to \$12,000 She Says.

United Press Telegram. UNIONTOWN, May 25.—A hearing was held in the contested will of the late Serena A. Laughead in which a son, Walter W. Laughead, is seeking to have the provisions of the document set aside. Laughead claims that his sister, Rose Lva Laughead, used undue influence over her mother to secure the will which left everything to her. On the other hand, the daughter says that because her father left Walter well provided, the mother thought he had already received his share of the estate.

Witnesses were heard this morning before Judge J. C. Work in Orphan's Court. C. H. Seaton and R. W. Playford, witnesses of the will, stated that Mrs. Laughead seemed in sound mind when she made the will September 21, 1902. She was then 62. She died at the age of 63.

When Ferdinand Laughead died he left his son Walter 51 acres of George's township land which was underlaid with Pittsburgh coal and very valuable. His two young children were also provided for. Walter Laughead tried to persuade his mother to set aside this will but she returned his letter unopened. Rose Lva lived at home and was cared for both her father and mother. While the estate left Walter Laughead was very valuable, Rose Lva Laughead claims that the share left by her mother only amounts to about \$12,000. The case will probably take all day. Walter Laughead was still on the stand when the noon adjournment was taken.

An affidavit of defense was filed this morning in the suit of Joe Pope against the Young Brewing Company, Bookkeeper F. W. Conway for the hiring company, states that the \$114 paid to Pope was due the company on collections made by Pope. Conway denies that any part of it should have been applied to future orders.

Says Trail of Frauds Led to Havemeyer

NE YORK, May 25.—Oliver Spitzer today declared in the Federal court that the "trail" of the sugar frauds led directly to the late Henry C. Havemeyer, organizer of the Sugar trust.

He denied he was promised a pardon in return for his testimony. He said he confessed to relieve his conscience.

Spitzer said he received his pardon an hour before he testified. "I took the stand of my own free will," he said. "I wanted to regain my position in the world."

His cross-examination was mild. Washington R. Thomas, President of the trust, is at present under subpoena. He pleaded important business engagements to Spitzer but the Assistant Prosecutor refused to excuse him.

Spitzer, after he left the stand, denied to the reporters that H. C. Havemeyer told him to "lie" the scales. He said that of his own volition. He received nothing additional to his salary for the fraud.

BRIDGE AT RITTENHOUSE

In Pittsburgh By National Park Seminary Alumnae.

Mrs. William Dull and daughter, Miss Emma Kate, Mrs. J. Melvin Gray and Mrs. A. D. Solson were among the out of town guests present at a large bridge party given yesterday afternoon at the Rittenhouse, Pittsburgh, by the Western Pennsylvania Alumnae of the National Park Seminary, of which Mrs. Dull is a member. Over 75 tables were in play for bridge and bouquets of sweet peas and roses tied with maline bows were awarded as prizes at each table. Mrs. Dull captured a prize. Lavender and pink were carried out in all the appointments. This afternoon Mrs. Dull, Mrs. Solson and Mrs. Gray are attending a five hundred party at which Mrs. S. E. Frock is hostess at her home in Uniontown.

Five Hundred Party.

At a prettily appointed five hundred party given yesterday afternoon by Mrs. Colvin Grant at her home in Uniontown the engagement of Miss Mary Littman to Winn Russell Smith of West Brownsville was announced. The marriage will be solemnized at the home of the bride-elect's parents, Mr. and Mrs. John Littman in South Mount Vernon avenue, Uniontown, June 14.

Appraisal Filled.

In the estate of the late William Henry, Sallick township, appraisers J. M. Pringle and D. D. Pretz, have set aside \$300 worth of personal property as exemption for Mrs. Rebecca Henry, the widow.

Buy Empire Mills.

The Garry Iron & Steel Company of Cleveland, has purchased the rolling mills and roofing and ceiling plant of the Empire Iron & Steel Company at Niles, O., and assumed control Wednesday, May 18.

CHARLES E. MULLIN WAS FOUND GUILTY.

Mt. Pleasant Banker Convicted With E. H. Steinman Today.

LOANED ON INFLATED PLANTS

Case Went to the Jury Yesterday Afternoon and Verdict Was Returned When the Federal Court Convened This Morning.

United Press Telegram. PITTSBURGH, May 25.—Cashier Charles E. Mullin, accused of misapplying the funds of the Farmers & Merchants National Bank of Mt. Pleasant, and E. H. Steinman, accused of aiding him, were found guilty in the Federal District Court today. The cases went to the jury yesterday afternoon and the verdict was returned when court reconvened this morning. Attorneys for the Government declared that the defendants had deliberately taken money from the bank and replaced it with worthless checks, and that the Acme Lumber & Supply Company, the Anchor Glass Company and the Searchlight Manufacturing Company had incurred indebtedness at the bank aggregating \$143,000 on plants on which inflated values had been given.

The defendants' attorneys maintained that Mullin had no purpose in wrecking the bank and that he and Steinman believed the companies would prove good investments.

Says Trail of Frauds Led to Havemeyer

NE YORK, May 25.—Oliver Spitzer today declared in the Federal court that the "trail" of the sugar frauds led directly to the late Henry C. Havemeyer, organizer of the Sugar trust.

He denied he was promised a pardon in return for his testimony. He said he confessed to relieve his conscience.

The Morgan Store Has Been Closed; Ovens Banked.

SPECIAL TO THE COURIER. OWENSDALE, May 25.—The Morgan store of the Union Supply Company has closed and the business transferred to Broad Ford. Matthew Gault, manager of the Morgan and Broad Ford stores will take charge. The coke depression struck the Morgan valley a serious blow and the lack of operations did not warrant the carrying of two stores in such close proximity of each other and it was decided to operate only the store at Broad Ford.

NEW ENGINE HOUSE

Replaces One Burned by Explosion at Katherine.

The engine house that was burned by the explosion of a naphtha tank at the Katherine plant some weeks ago was replaced by a modern brick one. The new ropes were put on the trolley and new buildings are now under construction.

The 50 rectangular ovens at this place are producing slowly. They will be connected with the present block. The new electric punch lever at Katherine is a pronounced success.

HOME FROM WASHINGTON.

Rev. C. M. Watson and B. S. Forsythe Get Back.

Rev. C. M. Watson and B. S. Forsythe, president of the Fayette County Sabbath School Association, arrived home last evening from Washington, D. C., where they attended the World's Sunday School Convention. Others who attended the convention from Connellsville were E. S. Marsh, William Wardley and John Kooser.

GOING TO COMMENCEMENT

Mrs. H. M. Kerr Will Leave for Philadelphia Tomorrow.

Mrs. H. M. Kerr of South Arch street will leave tomorrow morning for Philadelphia to attend the annual commencement exercises of the Dickinson Seminary. Mrs. Kerr's daughter, Miss Martha, is a member of the class.

The exercises will open Saturday evening with a recital. The annual commencement exercises will be held June 8.

THE SENIOR CLASS HOLD EXERCISES

At Dunbar Township High School Building Last Evening.

THE PROGRAM WAS FINE

Members of the Class Distinguished Themselves and Reflected Credit Upon Their Instructors—There Was a Large Attendance at Exercises.

Standing room was at a premium at the annual class day exercises of the Dunbar Township High School held last evening in the High School building at Leisburg No. 1. The town was well represented and the large audience was greatly pleased with the clever manner in which the young graduates handled their subjects. A special street car carried the large crowd from Dickerson Run and Vanderbilt to and from the exercises.

The auspicious stage was handsomely decorated for the occasion. High School pennants, the class colors red and white, and the High School colors red and black, and potted plants were lavishly used. The class was arranged in a semi-circle on the stage. A feature of the evening was the musical program rendered by Kiefer's orchestra.

The program opened with a march, "Religious," by the orchestra, followed by a recitation "His Wedded Wife," by Elizabeth Mae Gildroy. The next period was taken up by Miss Margaret Cyrilla Henry, the class biographer, who gave a brief biography of each of her classmates. The class poet, Miss Alfretha Hardy was well received. Helen Virginia Kinch, the class prophet, depicted a very bright and prosperous life for each member of the class. A recitation "Horatius at the Bridge," by Central America Alton, and a story by Richard Carlisle McGee were pleasing numbers. Miss Mary Duff Leighty rendered a piano solo in a very capable manner. Many pleasing reminiscences of the school days of the class were related by Miss Margaret L. Hughes. An essay, "The New South," by Mary Veronica Henry followed. A selection "Peggy from Paris," by the orchestra followed by an address to the under classmen by William Kennedy Gault. The cartoonist Miss Estelle Marie Dunlap, exhibited some very clever cartoons. A recitation "A Brier Rose," by Anna Rebekah Hughes, was a delightful number. Henry Phillip Fieldson, the class donor, presented each member of the class with a small gift.

The class song, by Fern Ethel Sherer, and a march "Diabolo," by the orchestra, completed the program. From the generous applause which followed each number it was shown that the program as a whole was enjoyed immensely by the audience.

Tomorrow evening the annual commencement exercises will be held at the auditorium. A special street car will convey the patrons and friends of the school to and from the exercises. The car will leave Dickerson Run at 7:15 o'clock. The class address will be delivered by Prof. John H. Frizell, of English oratory in State College.

ANARCHISTIC PLOT

To Take Life of King Alfonso Has Existed Long Time.

BARCELONA, Spain, May 25.—(Special)—In an official statement today, "Land and Liberty," an anarchistic paper, says that the anarchists arranged the recent bomb outrages. The paper's statement shows the existence of a plot to take King Alfonso's life. A revolutionary outbreak is feared.

HOTEL IS BURNED.

Million Dollar Structure on Lake Champlain Prey to Flames Today.

ALBANY, N.Y., May 25.—(Special)—Hotel Champlain on Lake Champlain was burned today. The cause is not known. The hotel had not opened for the season and the only occupants were 60 employees. The electrician is missing.

Uniontown's Claims.

Uniontown claims a population of 16,755 under the new census. In the Second Ward, alone, a claim of 6,300 is made and 6,400 in the Third ward.

MORE WESTERN MARYLAND CONTRACTS HAVE BEEN LET.

New York Firm and Connellsville Contractor Will Build as far as Indian Creek.

New Filled Ground Made Wall Collapse

The stone retaining wall which reaches out into the Monongahela river from Bernard O'Connor's residence on the West Side has begun to collapse. Nearly half of the stone work has fallen into the river. The fault was not the construction of the wall, which has withstood the ravages of many floods. The filling in of the lot with new dirt created a pressure from within that was too much for the wall.

Contractor O'Connor took the dirt excavated from the addition to the High School and dumped it on the rear of his place. He leveled off the ground and it looked fine, but the settling process proved disastrous for the wall. O'Connor thinks the stones and clay that filled the land will prove almost as solid as the wall.

WORK TO START AT ONCE

R. Gallardi Is Given the Stretch Between Herd Land and Indian Creek. Sand and Gravel Men Referred to the Sub-Contractors.

Work on this end of the Western Maryland will begin immediately and already the successful contractors are assembling their equipment ready to begin work as soon as the weather will permit. The contracts have been let for the grading between Herd and Ophiole. R. W. Hill & Company of New York will do this work on the West Side. His contract is between Connellsville and the Herd tract. From the Herd tract to Indian Creek, R. Gallardi of town was the successful bidder. Mr. Gallardi is preparing to start immediately.

W. H. McCourt of Akron, O., has the contract for a stretch between Indian Creek and Ophiole.

All bids for supplying sand and gravel for the work have been referred by the Western Maryland to the successful sub-contractors.

In order that the road can be built as rapidly as possible the divisions have been made small in order that each sub-contractor can make the best time possible. Already the contractors are arranging to have their laborers early on the scene in order that operations can begin at once.

KNIGHTS OF MALTA WILL GO TO CASCADE

Big Outing Is Promised June 22 When the Order Will Go to New Castle.

The Knights of Malta will hold their annual picnic at Cascade Park, near New Castle, this year. This will be the first picnic to Cascade since 1905, when the Malteses took over 3,000 people with them. The picnicers will go over the Pittsburgh & Lake Erie railroad and excellent arrangements have been made with the railroad company. Wednesday, June 22, is the date.

The company has guaranteed to make the run from here to the park in two hours and 30 minutes. The rate for adults will be \$1.25 and for children 50 cents.

Tenth Reunion Invitations Sent Out

Tuesday members of the Tenth regiment, Connellsville received the first announcement of the annual regimental reunion to be held this year in New Brighton, in the form of an invitation.

Comrade—You are cordially invited to attend the Tenth Annual Reunion of our regiment, to be held in New Brighton, Pa., on August 4, 1939, under the auspices of Company B. The committee are hard at work and a rising good time is guaranteed.

"Sincerely yours,"

H. C. CUTHBERTSON, Secretary.

Exhibition of Boxing Booked Here June 15

Fred W. Kelley, the Greensburg boxing promoter, was in town last night and closed arrangements for starting a boxing exhibition here on the evening of June 15. The local fans were so well pleased with the manner in which Kelley conducted his Greensburg exhibition that he received assurances of generous support here.

The exhibition will be held in the West Side auditorium. Although the participants have not yet been finally determined upon Kelley is trying to get a good man from the East to go on with Buck-Crouse, the best drawing card in Pittsburgh, in the final Joe Getz, the clever Johnstown lad, will appear in the semi-final.

It has been many years since Connellsville fans had an opportunity to witness a clever boxing exhibition, the attempts along that line in the past having been decidedly mediocre. Kelley tolerates no disorder or roughness. As evidence of the high character of the crowds which attend in the Westmoreland county town the bouts are held in the St. Clair theatre. Loud talking and every form of disorder is tabooed.

RAND COMPRESSOR

Has Been Installed at the Griffin Plant, Near Masontown.

The new Ingersoll Rand compressor installed at the Griffin plant of the Bessemer Coke Company some weeks ago was set in operation last week. The Parsons force blast is used on the furnaces at the boiler and has been in successful operation for several months.

A modern coke crusher is used at this place. Several minor improvements are also being made around the yard.

CHINESE DEMONSTRATIONS

Against Missionaries Has Been Growing Serious.

LONDON, England, May 25.—(Special)—Messages from Chinese missionaries say anti-foreign demonstrations throughout China are increasing. A widespread outbreak before autumn is inevitable.

The missionaries are consuming abandonment of the missions and concentrating near the coast.

Cloudy; Then Fair. Partly cloudy tonight Thursday fair, is the noon weather forecast.

PATIENTS IMPROVING

Who Were Operated on at Cottage Hospital for Appendicitis.

H. H. Davis, who was operated upon for appendicitis Sunday, May 3, at the Cottage State Hospital, has returned to his home on North Pittsburgh street.

The condition of H. T. Crossland, who was operated upon at the hospital for appendicitis, is improving.

Retirement of Veteran. Oliver W. Beatty of Uniontown, for 36 years an employee of the P. R. R., at the County Seat, will retire next week.

The Scrap Book

Rough on Cannon.
Speaker Cannon met the Rev. Henry N. Cowden, chaplain of the house of representatives, in a corridor one day.

"You are an old hypocrite!" he said roughly.

"Why, what?" Mr. Speaker protested. Dr. Cowden in great surprise.

"Well, if you are not, I am," said the speaker, "and I have just been hearing about it."

"What, Mr. Speaker?"

"Then, while he looked him over in that of the chaplain, he told the story: 'The other day in the house gallery a lady approached a doorkeeper who was protecting the morning prayer from interruption. She attempted to push past, but was restrained. 'But I must go in,' she said. 'I want to see this man Cannon.' 'Just wait a moment,' said the doorkeeper. 'But I must see him. I have heard so much about him,' persisted the woman. 'To save trouble the man let her in. On the 'AND HIM PLAYING' threshold she stopped a moment and saw Chaplain Cowden with his head bowed in prayer. 'Oh, the old hypocrite,' she ejaculated, 'and him praying, too!'"—St. Louis Republic.

What Shall I Do to Be Just?
What shall I do to be just?
What shall I do for the gain of the world, for the sake of men?
Teach me, O Lord, that I trust
Teach me the difficult path
Leading out of my sorrow and madness;
Teach me the path of truth.

Shall I wrench from my finger the ring
To cast to the tramp at my door?
Shall I tear out each luminous thing
To drop in the palm of the poor?
What shall I do to be just?
Teach me, O Lord, in the light,
When the poor and the rich alike trust,
My heart is aflame to be right.
—William Garland.

A Witty Reply.
Whenever the United States supreme court on hearing the argument of counsel for plaintiff in error is entirely satisfied that he has no case the chief justice is apt to say to counsel for defendant in error that the court does not care to hear further argument. At one time Hon. Matthew Carpenter, from Wisconsin, was counsel for plaintiff in error and opened the case. Before he was through the court was satisfied that there was nothing in it and so when he had concluded and counsel for defendant in error arose Chief Justice Waite said, "The court does not care to hear any further argument."

Counsel for the other side was a little deaf and, although noticing that the chief justice spoke, did not hear what he had said and, turning to Mr. Carpenter, who sat beside him, asked what had been said.

"Oh, being it!" replied Carpenter in tones amiable to the bench. "The chief justice said he would rather give you the case than hear you talk."

Wanted a Diagram.
A waiter at a western hotel said to one of the guests at the dinner table: "What kind of pie do you wish? We have peach, apple, pumpkin and jam."

The guest replied, "Give me peach, apple and pumpkin," to which the waiter, with a shrug of his shoulders, a curl of his lips and an appropriate gesture, said, with sarcasm, "What's the matter with the lemon?"

An Englishman sitting at an adjoining table, who overheard the conversation, now said to his neighbor, "I beg your pardon, but what was the matter with the lemon?"

Stung!
Two strangers met at one of the small tables in a dining car, says the New York Sun. They found a common bond in the effort to secure something to eat, and by the time the coffee came they were great friends.

"I wonder if you will do me a favor," remarked the first one as he covered his plate with a substantial bill. "The other man seemed receptive, and he continued:

"Have you a lower berth for tonight?" The man across the table nodded. "Well, I'm traveling with my mother, who is rather well along in life, and I'm anxious to make her comfortable. Would you be kind enough to give her your berth?"

"I should be delighted," responded the stranger.

They went back to the sleeper, where the accommodating man was presented to the other's mother, a white-haired old lady with a charming face. The good Samaritan had exchanged his lower for the upper belonging to the old lady, and he was radiating with a sense of charitable kindness. It led him to remark affably to the other man:

"But where are you going to sleep?"

"Oh, that's all right," was the answer; "that's my lower berth over there."

KEELHAULING.

An Old Time Form of Punishment For Offending Sailors.
Very few persons know what keelhauling is, but before the advent of steam it was a recognized form of punishment for offending sailors and more to be dreaded than even the cat of nine tails.

A line was passed beneath the ship from port to starboard side, leaving about a foot of slack under the keel. The unfortunate tar's feet were securely tied together and his arms lashed behind his back. In this helpless condition he was attached to the end of the line and dropped overboard. The unfortunate tar's feet were securely tied together and his arms lashed behind his back. In this helpless condition he was attached to the end of the line and dropped overboard. The unfortunate tar's feet were securely tied together and his arms lashed behind his back. In this helpless condition he was attached to the end of the line and dropped overboard.

Keelhauling was great sport for the captain and mates, but the mariner who once survived the experience took good care never to do anything to merit such a terrible punishment again.—New York Press.

EFFECT OF HEAT.

Why Standing Before a Hot Fire Makes the Face Red.
When one stands before a hot fire the face becomes red, as we all know. This result is the effect of the action of radiated heat on the nerves controlling the small blood vessels of the skin. These tiny vessels are normally in a state of moderate contraction. Under exposure to heat they relax and become dilated with blood. The same process, under the mysterious connection of the vasomotor nervous system with mental impressions, produces ordinary blushing.

In regard to exposure to direct heat the reddening of the skin, together with the uncomfortably warm feeling accompanying it, may be looked upon as one of the useful little "danger signals" with which we are surrounded. Persons who from any cause have lost their susceptibility, as is the case in some forms of paralysis, may expose a limb to heat until serious injury results.

The reason that the face chiefly flushes is that in the ordinary position near a fire it is most directly exposed to the rays of heat, while most of the body is shielded by clothing; that the nerves of the face are particularly sensitive in this respect and that the skin there is more abundantly furnished with blood vessels.—London Standard.

Art of Papermaking.
In the matter of making and using paper we are not in line with the Chinese and other Asiatics, who not only make the finest paper in the world, but apply it to all sorts of uses, making window panes, fans, umbrellas, sandals and even cloaks and other garments of it. The art of making paper from mulberry bark is said to have been invented in China in the second century B. C. Afterward, however, it was introduced into Europe, where it was also used. The manufacture spread to the adjacent countries. The Arabs learned it in Samarkand, and their learned men carefully kept secret the process by which they made paper for their own use. The crusades made Europe acquainted with the art, and the first paper mill in Germany dates from the twelfth century.

Art of Papermaking.
In the matter of making and using paper we are not in line with the Chinese and other Asiatics, who not only make the finest paper in the world, but apply it to all sorts of uses, making window panes, fans, umbrellas, sandals and even cloaks and other garments of it. The art of making paper from mulberry bark is said to have been invented in China in the second century B. C. Afterward, however, it was introduced into Europe, where it was also used. The manufacture spread to the adjacent countries. The Arabs learned it in Samarkand, and their learned men carefully kept secret the process by which they made paper for their own use. The crusades made Europe acquainted with the art, and the first paper mill in Germany dates from the twelfth century.

Ladies Night

at the Soisson;
Presents Given

The regular mid-week matinee of the Howell-Kelch stock company will be given this afternoon at the Soisson with "The Slaves of the Orient" as the attraction. Tonight is Ladies' night and presents will be given those who attend.

The feature of the week is "Shorty" Edwards, the Lilliputian, who does a specialty act in connection with the regular between-the-acts features of the company.

FIREWORKS EVERY EVENING.

at the Hippodrome, Uniontown. Grand opening Monday, May 26, Decoration Day, matinee and evening. Rest of week in evenings only. A sensational program opening with band concert from 7:30 to 8:15, when performance starts. West Point crew, the door, On East Fayette street, Uniontown, 1,500 seats, 25 cents. (Hillside), sensational divers, go from Uniontown to the Pittsburgh Hippodrome.

ON TO IRELAND.

Meet Me at Blarney Castle is The Slogan of Irish-Americans.

The Irish Home Going Movement Association of the United States is urging as many Irish-Americans as possible to visit their native country this summer. The association believes that much can be done for Ireland by Irishmen in the United States if they visit that country and examine its industrial conditions. Thousands of Irishmen in America have decided to go, and great preparations are being made in Ireland to welcome those who return to the Emerald Isle. A trip to Ireland is not at all expensive, but any Irishman or others who intend going should see Manager Ruckelshaus of the Foreign Department of the First National Bank at once. Ocean travel is unusually heavy this year and steamship reservations should be made without delay.

AN HONOR GUEST.

Mrs. J. R. Porter Entertains for Mrs. F. L. Brendel.

Mrs. F. L. Brendel of Hagerstown, Md., was honor guest at a delightful bridge party at which Mrs. J. Donald Porter was hostess yesterday afternoon at her home in East Green street. Four tables were in play and a well appointed luncheon followed the games. Mrs. Harry Dunn and Mrs. Brendel were awarded the duty prizes.

Mrs. Charles Johnston of Pittsburgh was an out of town guest present.

Special Meeting Called.

The many friends of Undertaker J. M. Harbans will be pleased to learn that the unfortunate male against him, who was the center of controversy, has been dismissed by the Health Department at Hertsburg.

The members of Dunbar Council No. 207, of J. P. A. M. All are requested to meet at the hall Monday, May 30, at 8.30 A. M. prompt, to elect officers.

Fraternally yours, R. A. RODKEY,
Recording Secretary.

OHIOPYLE.

OHIOPYLE, May 25.—Mr. and Mrs. Adolphus Shipley, who have for the past several months been stopping at Cumberland, Md., returned to their home here last evening, much pleased

SMITHFIELD.

SMITHFIELD, May 24.—The funeral of Ewing McGuffey, who died at his home here Saturday from heart failure, was held at 2 o'clock this morning at the home of Mrs. J. B. Smith, where the funeral services were conducted. The services at the home after which the Masonic order, a large number of friends and the Undertakers of Uniontown, took charge and were present from the grave with the beautiful and impressive ritualistic services of the order. The body was placed in a casket of mahogany and was buried in the uniform of that rank. The escort was composed of eight Knights Templars in uniform, many of our cordial friends, the Board of view of the comet Monday night but only for a short time on account of a sheet of vapory clouds coming up.

Hugh and Ollie Churchill of Uniontown were the guests of A. J. Smith and wife at the home of Mrs. J. B. Smith.

Sheriff P. A. Johns brought a load of Uniontown people to the McGuffey funeral in his auto Monday.

James H. Smith of Jackson, Westmoreland county, Monday, where he has an interest in a coke plant.

The borough duplicate for 1910 is from the town of Smithfield, Pa. The levy is six mills, the largest levy

since the borough was incorporated and on the assessed valuation makes a revenue for borough purposes of \$1,003.71.

Judge R. E. Umbel attended the funeral of Ewing McCleary on Monday. Cameron Sturgis of Anderson's Cross Roads was a business visitor here this morning.

has been very ill with typhoid fever, is reported to be improving.

Miss Mary Sperry, who has been very poorly suffering with nervous prostration resulting from the severe strain she has borne in caring for the sickness and death of her mother.

Miss Ruby Augustine of Addison is visiting at the home of G. R. McDonald, near Ada, McDonald and family have returned from a visit with friends in Lipson.

MEYERDALE.

WEDNESDAY EVENING, MAY 25, 1910.

THE ANIMUS AND FOLLY OF DEMOCRATIC TARIFF REVISION.

The Democrats demand that the President shall call an extra session of Congress next March to revise the Tariff. The President will probably not heed the demand. There are excellent reasons why he should ignore it, chief among which is the fact that the Payne-Aldrich bill has improved business conditions, raised wages and promises prosperity if it is permitted to have a fair chance. It is entitled to a fair trial and that is all the Republican party asks of the people. If, after being properly tried out, it appears in any of its component parts to be unjust, unfair or inimical to the interests of the country, the Republican party can be trusted to properly revise it.

The cry of Tariff revision comes from a party which has in late years earned for itself the name of the Party of Opportunity. Its ancient principles have in a large measure been abandoned. Its efforts are directed solely to getting back into power, and to do so it is willing to stand on any platform, or bewilder any regular citizen, which promises to become a means to that end.

The Tariff issue has been taken up because the kinks of the insurgent element lend hope that a combination with them may split the Republican party and let the Democrats in power again. The Tariff issue is peculiarly acceptable because it is more in harmony with Democratic principles than any other issue. All the Democratic Tariff bills of recent years have rejected the principles of Protection and embraced those of Free Trade.

The Democrats would "revise" the Tariff law by a radical reduction of the duties on iron and steel and absolute free trade in wool. They justify this proposition on the ground that it would reduce the cost of living. Perhaps nothing could be more fallacious. The removal of the duty on wool might reduce the cost of clothing, but any radical reduction of the duties on iron and steel would result in closed mines, furnaces, mills and shops, which would mean idle labor, business depression, disaster and suffering. While it is undeniably true that the cost of living is high, it is also a fact that the wages of labor were never higher than they are at this time. Better far for the workmen to have high wages with high prices than low prices and little or no wages.

Prices are relative. Wages are high or low as their purchasing power is great or small. In spite of the noisy agitation of this question it remains an indubitable fact that the high cost of living is largely the cost of high living. For proof of this fact the reader has only to look about him and in most cases to test the truth or falsity of this statement by his own manner of living as compared with the manner in which he lived ten years ago.

The Pittsburgh Gazette Times and the matter up concisely when it says concerning the Tariff revision purposes of the Democrats: "They will take the Wilson bill as a model, as far as its tariff for revenue features may appear, and they will exclude anything which savors of Protection, on the brilliant assumption that the more goods we are allowed to purchase from abroad, where labor is cheaper, the less it will cost us to live. There isn't any doubt about that. But meanwhile United States mills and factories making comparatively goods will either be idle or American wages must come down to the European basis."

The spirit of political unrest has been guilty of some grave offenses against the American people, but none more uniformly injurious than the encouragement it has from time to time lent to the peculiar Tariff theories of the Democratic party. The election of a Democratic Congress will accomplish nothing in the way of Tariff revision, but it will have the effect of frightening third capital and inviting another serious business depression. We do not like to charge the Democratic politicians with being willing to sacrifice the country to their ambitions, but there are times when it looks that way. Some ambitions are so cold and calculating that they would tinker with the Tariff to bring about business depression and idle labor in the hopes that the party in power, by reason of these conditions will be retired by an injured and inflamed people. They would in the language of their own poorly educated Peerless Leader, "press down upon the brow of Labor this Crown of Thorns," heedless of humanity, mindful only of the political power and the usquequo thereof to their acceding.

"Let well enough alone," is an excellent rule to follow in this case. The country has bristled the money panic of 1907. Capital and Labor are again marching with eager feet and hopeful hearts toward the land of milk and honey. Let them not be tangled in Tariff politics nor their hearts bowed down with the griefs of another widespread business depression with its endless train of evils.

Brief Sketch of Thomas S. Crago, Candidate for Congress in 23rd District.

Thomas S. Crago, born at Carmichaels, Greene county, Pennsylvania, August 9, 1859. Educated in public schools and at Greene Academy. Graduated from Waynesburg College in the year 1882, and from Princeton University in the year 1893. Read law in the office of Captain James E. Sayers, Waynesburg, Pa., and was admitted to practice law in the year 1891, since which time he has been engaged actively in the practice of his profession at Waynesburg, Greene county, Pennsylvania.

He received his college education as a result of his own work, as in his early life he worked in the carriage shop which his father owned at Carmichaels, Pa. By his work he earned the money to pay his expenses through college, and whenever he would run short, would have to leave school for the time being until he was again in shape to take up his studies.

While a student in the college he enlisted in Company K, Tenth regiment, and at the outbreak of the Spanish-American War was captain of this company, and together with his company was mustered into the United States service May 11, 1898. The history of the regiment in the Philippines is well known. After the return of the regiment, which was mustered out August 22, 1899, he returned to the practice of his profession, and a short time after the organization of the regiment was elected Major of the regiment, and was afterwards elected Lieutenant Colonel of the regiment.

He was married October 27, 1897, to Miss Margaret L. Hoge, and they have three children, two girls and one boy, the elder being aged eight years and the youngest three years.

He was a delegate to this Congressional District to the Republican National Convention in 1904, when President Roosevelt was nominated. In 1906, he received the unanimous endorsement of Greene county for Congress, but in the Congressional conference finally withdrew in favor of Allen F. Cooper.

He is a progressive citizen, and has been identified with the business affairs of Greene county. He is a member of the First Presbyterian Church of Waynesburg, and is a Trustee of Waynesburg College, and the Southwestern State Normal School at California, Pa.

The Pittsburgh Trade Boomers will look in on Connellsville this week, but it has not yet been determined whether the Galkwar of Bardonia will visit the Connellsville coke region on his present trip. The Indian Prince is said to have a passion for diamonds. Perhaps he might be induced to buy a few coke plants in Fayette or a few thousand acres of coaling coal in Greene county. The black diamonds may not be so pretty as the white variety, but they are more useful and more valuable.

Halley Sweet Halley, goodbye! In the classic language of Abe Martin, "Did you even notice the bucker weighing his hand an' sayin' seventy-two cents?"

"Too much legislation and too much agitation" makes too little business and too little prosperity.

Somerset politics are not always of the maple molasses sort and there is a suspicion that the sun-kissed hills of Somerset took down upon much guile and bitterness.

T. Roosevelt will have trouble showing up a better string of African Leopards than Philip Frick. Young Frick is evidently his father's son. When the latter undertakes to do a thing the job is usually done promptly, skillfully and effectively.

The persistent efforts of Ohio's newest senator to burlesque the Upper House at Washington do not seem to make much progress. The Senate is an ancient and honorable antique with a constitution of venerable age, and it is not to be trifled with by a young man of fresh paint and fresh members. But the late

story of the regiment in the Philippines is well known. After the return of the regiment, which was mustered out August 22, 1899, he returned to the practice of his profession, and a short time after the organization of the regiment was elected Major of the regiment, and was afterwards elected Lieutenant Colonel of the regiment.

He was married October 27, 1897, to Miss Margaret L. Hoge, and they have three children, two girls and one boy, the elder being aged eight years and the youngest three years.

IS GREATEST DAY OF THEIR LIVES.

Thirty-Eight Young People
are Graduated in Scott-
dale Schools.

THE OPERA HOUSE CROWDED

Dr. O. T. Corson Was the Orator of
the Evening—Two Members of
Class Appeared in Notable Speeches.
Annual Banquet Followed.

Special to The Courier.

SCOTSDALE, May 25.—For 38 boys and girls of town last night closed the greatest day of their lives, for it was commencement day. The program of the twenty-second annual commencement of the Scottdale High School has not been surpassed here, and it is certain it could not have been more smoothly perfect from the time the orchestra played their first number until they played the last to the descending curtain and the class yell. The Gayer opera house was crowded with a representative audience of the friends of the school. The curtain rose to show the stage filled with the class in caps and gowns, and back of them a chorus chosen by Director of Music C. E. Stephens. The board of education and the high school faculty completed the filling of the stage. The class presidents decorated the stage and plants in pots trimmed in purple and gold flanked the stage.

Principal Landis Tanager had the program in charge and throughout its rendition the best of attention prevailed in the big audience, and the remarks of the speakers were listened to with great interest. Rev. R. B. Murch, D. D., pastor of the First Methodist Episcopal Church, delivered the invocation, which was followed by "Praise Ye the Father" by the high school chorus. There were but two class members of the class, Miss Ruth Boydell, who spoke on "The Future of Woman," and Miss Josephine, who spoke on "The Future of the Home." Miss Boydell, who took the second honors in the class, playfully declared the home as the woman's sphere and gave but a faint encouragement to the woman who "denies" her rights. Her oration was listened to with closest attention. Miss Josephine, the first honor girl, delivered her oration cleverly and it was also marked by the audience and thoughtful.

Dr. O. T. Corson, formerly Commissioner of Education of the State of Ohio, delivered the address of the evening, and drew home truths in "The Church, the Home and the School." He pleaded for a greater community of operation of the three, and most particularly the home and the school. Of the fathers of the teacher, he said that they actually give their lives in the cause of education, and such rare sacrifice and devotion should have the fullest support and interest upon the part of the parents. To the teacher he said the boy or girl who may be undisciplined at home, and the teacher is expected to make them go straight—and usually does, where the parent often by their own confession, cannot. The greatest curse of the school is not overwork in the school or in the home but it is the society life that immature children are leading today. Depend upon it the home is the worst of the school. Dr. Corson speaking right from the heart on the subject of teaching, gained by experience both as a teacher himself and dealing with teachers made an eloquent plea for them. In concluding he said that he had known Principal Landis Tanager for sometime and that the latter said in the afternoon that he had spent a very pleasant year of work in Scottdale, and, said the speaker, "no better compliment can be paid a community than that."

The presentation of the diplomas, each tied with purple and gold tie class colors, was by Robert Skemp as the name of one of the class was called by Mr. Skemp they rose in their place and Russell Elchert, one of their members, delivered the diploma to them, so that the work of handing out the 38 took but a very short time.

Class List, 1910.

Anna G. Hoffman Hazel E. Van Allen
The annual banquet which followed the commencement exercises was at the Hotel building and was a brilliant social affair that attracted about 150 people. An elegant menu was served and dancing followed the banquet. Landis Tanager, Superintendent of the Scottdale Schools, was the toastmaster and filled the position with great credit. Mrs. W. F. Shotts welcomed the class of 1910 and Walter Elchert replied. "From the Powers That Be" was the toast of Dr. O. T. Corson. Secretary of the Board of Education, "Athletes" was the subject assigned to Charles R. Shultz, Principal of the High School and H. R. Parker, responded to "The Roll Call." The alumni officers are H. R. Parker, President; Homer Grant, '06, Vice President; Mabel Ros-

Anson B. Harris of Perry Township and His Platform.

Anson B. Harris, candidate for the Republican nomination for the Legislature in the Second District, was born and raised in Perry township. He lives on his own farm there and is engaged in farming and fruit raising. He is married and has one son, who is a student in the Jefferson Medical College of Philadelphia. Mr. Harris has never held any office except those of his own township. He nominated and elected to the Legislature, he will be in favor of the following legisla-

tion:
1st. The right of the voters of the county to say by their ballots whether or not saloons shall exist in the county.
2nd. The best roads consistent with reasonable taxation.
3rd. The right to nominate and elect United States Senators by direct vote of the people.
4th. Honesty and economy in the administration of State and Local Government.—Adv.

William H. Rankin's Candidacy for Legislature in the Second District.

William H. Rankin, candidate for the Republican nomination for the Assembly, is meeting with much encouragement in his canvass. His entry into the field has been welcomed by his many friends throughout the Second District.

Mr. Rankin has been a resident of Connelldale for the past 25 years. Baltimore & Ohio railroad. His character for 18 years he has been with the actor is above reproach and his dealings have always been marked by a

sincerity and honesty of purpose which commended him to all. Rankin stands for clean politics. His canvass has shown him that the people are disgusted with the workings of the machine. He wants the people to be secured by clean methods. Sentiment is rapidly growing in favor of honesty in politics as well as business and Mr. Rankin is the personification of this ideal. He is a clean man in every respect and is making his first political fight a clean one.—(Adv.)

New Schedule Big Thing for Business Men.

Local business men who have interests in West Virginia, especially those developing the coal veins of the Fairmont district, are exceedingly well pleased over the new Baltimore & Ohio schedule which gives much better service. Heretofore it has been practically impossible to go to the mines and return the same day if any amount of business had to be transacted. Under the new schedule it is possible to leave here at 7:30 and have practically the entire day at the work before returning on the evening train.

FIELD DAY

And Class Exercises of Perry High School Today.
The field and class day exercises of the Perry High School will be held this afternoon. A good program has been arranged. The Senior, Junior and Freshman classes will compete. Besides the class contests there will be a foot race for all novices, two-mile race, a bicycle race open to students and a May Pole drill.

Following the field day events the High School teams of Connelldale and Perry will meet on the diamond. The sports will be held at Luce's Park.

MISSIONARY CIRCLE

Of the First Baptist Church Will Meet Tomorrow.
The Ladies' Missionary Circle of the First Baptist Church will hold its monthly meeting tomorrow afternoon at "Locust Heights," Dunbar township, the home of Mr. and Mrs. W. H. Robinson. A program consisting of musical and literary selections will be rendered. All members of the society and congregation are invited to attend and those attending are requested to be at the West Penn waiting room at 2 o'clock.

New York as New City.
If people make a city, then New York is the newest city on the continent, for only one New Yorker out of five had American ancestors three generations back.

Efforts to Prevent the Sale of West Side Property in Litigation.

UNIONTOWN, May 25.—On petition of Attorney John Duggan, representing Mrs. Caroline Melo of Connelldale, a rule was granted in the Orphans Court, Tuesday, directing R. S. Pierce, administrator, to show cause why he should not appraise personal property and set aside \$300 exemption for the widow. Pierce is administrator of the late Joseph Melo. After Melo's death it was discovered that he left a will bequeathing his property to Thomas Mancuso and upon request of the latter R. S. Pierce was named as administrator. The widow claims her \$300 exemption but avers that Pierce has not set it aside for her.

Six months to the Allegheny county work house was the sentence imposed Tuesday afternoon on Henry Hill, a Connelldale negro, charged with felonious cutting. He entered a plea of guilty. Hill had trouble with Henry Pointeaster at Connelldale on May 7, show day, and slashed him severely with a knife. He was prosecuted by County Detective Frank McLaughlin.

M. L. Root, of Everson, arrested for practicing medicine without being properly registered in Fayette county, was let off upon payment of costs and a promise to abide by the rules in the future. He leaves in a few days for Cleveland to complete his course in medicine. The costs amounted to about \$10.

Mike McCain, of Connelldale, got into the wrong door and carried away a pair of shoes and a pair of trousers he pleaded guilty to a charge of larceny, but was let off with payment of costs.

Brown, about 160 yards away, but on the same street.
Serious legal complications pertaining to title of Connelldale property are prevented by an order of court Tuesday afternoon, staying a Sheriff's sale and directing that an issue be framed to determine whether or not a certain judgment is lien on the property about to be sold.

Petition for this action was presented to court by Harry T. Crossland. Crossland is one of the defendants in a case styled James Allen, now for use of Walter Allen and Bailie Allen, now for the use of Sullie and Edna Allen, executors of Walter Allen, deceased, against Harry T. Crossland and Abram S. Haddock. The case is an amicable revival of a judgment at June term, 1902, to secure payment of \$6,000 with interest from July 13, 1899. The property against which the judgment was a lien is in the Ashman & Torrance addition to the West Side, Connelldale.

Crossland in his petition sets forth that on April 25, 1901, a release was filed, discharging the lien against the land. The amicable revival of judgment, he held, is now a lien against the land, although a lien was issued, by virtue of which the sheriff levied on the property and has advertised it for sale. On May 11, 1907, Crossland gave a mortgage on the property, and he sets forth that if it is sold under these conditions the title will be clouded and complications as to ownership will arise. The petition to stay the sale, and frame an issue to determine whether the judgment is a lien on the land, was accordingly granted.

All parties to the action, however, waived right of a trial by jury and agreed to submit the matter to the James Riley building, on Pittsburg street, to the property of Leslie

MRS. JAMES N. SUTTON.

Will Soon Begin Campaign For
Congress at Portland, Oregon.

MRS. SUTTON STILL FIGHTING

Seeks Election to Congress to Influence New Inquiry into Son's Death.
Los Angeles, Cal., May 25.—That Mrs. James N. Sutton has not given up her fight to have her son's death investigated by some other body than a naval court of inquiry is evident by the announcement that she is to be a candidate for congress from Portland, Ore. Her son, Lieutenant James N. Sutton, of the marine corps, met a tragic death at Annapolis two years ago. Twice has the navy department held inquiries into the cause of young Sutton's death, both times deciding he had accidentally shot himself.

Mrs. Sutton is not satisfied with the findings of the naval board and as a means of influencing legislation to ward reopening the case she has decided to run for congress.
"My mother is more than ever convinced," says Miss Daisy Mae Sutton, "that Jim met his death at the hands of his enemies and she will not rest until his name is cleared."

SPITZER TO TELL MORE ABOUT SUGAR FRAUDS.

NEW YORK, May 25.—When Oliver Spitzer, former dock superintendent of the sugar trust, confessed in court to frauds he created the biggest sensation in the now famous trial. While his confession made him the witness stand that he had been a party to the frauds against the government created a sensation, the attorneys for the government declare more startling information is under way and that the men "higher up" are headed toward prison as the result of Spitzer's story. President Taft, it is said, heard the confession of Spitzer before he pardoned him from the Atlanta prison, where he had been serving a two years' sentence.

Notice.
The public is warned against having any dealing with one, E. O. Connelly, in behalf of the Order of Owls. This man is not a representative of the local or Supreme Lodge of the Order of Owls.
By Order of Committee,
M. D. PRYCE,
M. D. L. BROOKS,
G. D. GOODWIN.

The BIG STORE.

"Holeproof" Costs No More Than Others

There are just two kinds of hosiery—the kind that wears and the kind that tears. Yet they both sell for the same price.
Certainly you would not buy unguaranteed hosiery when for the same money you can get the famous "Holeproof" guaranteed against holes for six months. You pay no more for "Holeproof" but it wears six times as long.
Every box of Holeproof Hosiery contains a written

guarantee. If any holes appear within six months you present the guarantee and get new hosiery free.
This hosiery is as smooth and soft as silk. It is shaped to fit the ankle like a glove fits the hand—it is both stylish and comfortable.
Learn what this hosiery really is—come in and see it for yourself today. Price from 25 to 50 cents a pair.

Berlin Brakeman Has Arm Cut off in an Accident

Special to The Courier.
BERLIN, Pa., May 25.—While in the act of coupling a car Saturday noon George Wetmiller, a brakeman on the Berlin branch of the B. & O. railroad, was thrown to the track and his left arm crushed by the wheels of the moving train. He was pushed from the track by the truck of the car which saved him from being crushed to death. The accident happened a short distance below the Berlin depot while the crew was doing some shifting. Wetmiller was at once placed in the 154 D Walker bus and taken to the office of Dr. Garman where an examination was made of the injured member. A short consultation was held after which Wetmiller was taken to his home and the arm amputated below the elbow.

HOLDING REHEARSALS

For Annual Children's Day Exercises at Sunday Schools.
Rehearsals are being held for the annual children's day exercises to be observed in the various Sunday schools on the second Sunday in June. Programs consisting of musical and literary selections will be rendered by the children either at the morning or evening services.

Why Have an Overheated Kitchen in Summer?

When the sultry days come and the coal range makes the kitchen almost unbearable and cooking a dreaded task, put out the range fire and try the newest method of cooking in hot weather—use a

New Perfection Oil Cook-stove

What a contrast! The kitchen no longer is stifling hot, the work is now done with comfort, and the housewife is not worn out with the heat.

She saves her strength, keeps her health and is better able to enjoy the summer.

The New Perfection does everything that any other stove can do—all the family cooking, baking, broiling and frying. No smoke, no dust, no odor. Heat is applied directly and not wasted. A turn, and the flame is out.

The New Perfection stove has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for the coffee pot or saucepans, and pickled towel racks.

It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimney, makes the stove very attractive and invites cleanliness. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

and "The Captain of the
Kansas."

Copyright, 1909, by Edward J. Clode

"Monolog that we draw lots to see who shall endeavor to escape tonight?"

"The men might even do that."

"Ah, yes—the men, of course. I think it hopeless. But try it! Yes; certainly, try it!"

A pause more eloquent than the most impassioned speech showed how this frail straw eddying in the vortex of their fate might yet be clutched at. San Benavides, trying vainly to guess what was being said, blurted forth an anxious inquiry. His compatriot explained briefly. Somehow the measured cadence of their talk had a less reliable sound than the vigorous Anglo-Saxon. They were both brave men. They had not scrupled to risk their lives in an enterprise where success beckoned even doubtfully. But they were lacking when all that remained to be settled was how best to die: in such an hour the men of an English speaking race will ever choose a fighting death.

"This time it was a woman who decided. It rose to her feet. She brushed back the strands of damp hair from her face and with deft hands made a rough and ready coil of her abundant tresses.

"Are you planning to send me with two others adrift in a boat while seventeen men are left here?" she asked.

The Brazilian ceased speaking. There was another uneasy pause. Hector felt that the question was addressed to him, but he was tongue tied, almost shamefaced. Come, however, did not shrink the task of enlightening her.

"Something like that," he said. "We can't let you out in with the rest of us, missy. That wouldn't be reasonable. But it's best to let the business of the square. We ain't going to try any other way, not so long as I'm skipper," and he looked with brutal frankness at De Sylva and the anxious, but uncomprehending San Benavides.

The ex-president knew what he meant. Even in his despondency he repeated the implied slur on his good faith.

"You cannot examine the boat until darkness sets in," he said. "Then you will find out how frail a foundation you are building on. It is absolutely ridiculous to assume that she can be made seaworthy. Her occupants would be drowned before they were clear of the islands."

"In any case, I refuse to go," said Iris.

"The boat that brought those men to this rock can bring nineteen men and a woman to Fernando Noronha. We must land there tonight. With those to guide us who know the coast, there is that should be possible. We have a right to struggle for our lives. We of the Andromeda at least have done no wrong to the cruel wretches who sought to kill us without mercy today. Why should we not endeavor to defend ourselves? There is food there and guns in plenty. Let us take them. Above all, let us not dream of any such useless device as this proposal to send three to drown somewhere in the sea and leave seventeen to perish miserably here. We are in God's hands. Let us trust to him, but while doing that fully and fearlessly we must seek life, not death."

"Butly for you, missy?" roared a sailor, and a growl of admiration rang through the cave.

De Sylva's incisive accents helped to bridge a moment fraught with possibilities. For it would be idle to assume that this polished ranting was composed of bluff. Self preservation is apt to prefer stronger than envious and such circumstances. Let it be assumed that three among twenty could escape that night, and it was horribly true that the field of selection might be narrowed by a wild beast struggling before the sun went down.

"The young lady has at least given us a project," he said. "It is a desperate one, however. I can see no other. But what can we do without arms?"

"Use our heads," put in Hector.

"Bring us to the island, Senhor de Sylva, and we will make a fight of it. In any case, even if it fails, they will not deliberately kill a woman. There must be other women there who will intervene in behalf of one of their own sex. But we may succeed. It is improbable that the whole of the troops will be gathered in one spot. Why should we not take some small detachment by surprise and secure their weapons? If we can land unobserved we ought to be able to drop on them apparently from the skies. I take it that the presence here of Captain San Benavides is unknown, and the leadership of an officer in the enemy's own uniform should turn the scale in our favor. Have you no followers among the troops or islanders? Suppose we make good our first attack and seize a strong position. Isn't it probable we may receive assistance from your parhous?"

"Perhaps—among the convicts," was De Sylva's grim reply.

"No officials or soldiers?"

"Not one. They are chosen for this service on account of their animosity against the former government. How else could you account for their treatment of untried men on a ship crippled by their first shell?"

"You spoke of a steam launch where is that kept?"

"At a wharf under the walls of the island which commands the town and anchorage."

"Assuming we have a stroke of luck and rush some outpost, would it be possible to cross the island before dawn and board the launch or some other craft in which we can put to sea?"

"There are only the launch and some small fishing catamarans. No other boats are allowed to exist on the island, in order to prevent the escape of convicts. The boat we possess is really a badly constructed catamaran, without a sail and minus the outrigger which alone renders it safe for the shortest voyage."

"Please, miss, an' gents all, may we smoke?" pleaded a voice.

Iris was for an immediate permission, but De Sylva shook his head.

"Not until the tide falls," he said. "There is a very real fear of a visit from the launch. It has passed this spot four times during the past two days—ever since my absence was discovered. In fact, the soldiers have searched every outlying island, but

CREW OF THE TERRA NOVA.

week," he said, "and are now steaming through the waters of the anchorage on the west side of the island. Most fortunately, they do not seem to be aware of your drifting boat."

"Then we added, with a confidence that was so incongruous with his unkempt appearance and tattered garments: 'If the convicts permit, the men may smoke now. In another hour the tide will be out and we may make history. Who knows?'"

"CHAPTER VIII.
CROSS PURPOSES.

THOUGH Iris gave such warlike counsel, it would be doing her a grave injustice to assume that her gentle disposition was changed because of the day's sufferings. The little, earnest, light-hearted schoolgirl and youthful mistress of her uncle's house had been subjected to dramatic influences. The ordeal through which she had passed, unscathed bodily, but seared in spirit, and left her strong to a tense pitch. Of course in this present crisis of emotions Iris little understood what her advice really meant. She was appealing to heaven rather than to the force of arms.

Oddly enough, the only professional soldier present condemned her project roundly when it was mooted.

"In leaving the island tonight you are acting on an assumption," protested Captain San Benavides to his chief.

"You cannot be sure that the Andromeda will not appear. The arrangement is that she is to send a boat here soon after midnight, yet if this mad scheme of an attack on armed troops by unarmed men is persisted in we must begin to ferry to the island long before that hour. In all probability we shall be discovered at once. At the very moment that our friends are eagerly awaiting us on board the ship we may be lying dead on the island. The notion is preposterous. He guided by Iris, Leon Corbin, and decline to have anything to do with it. Better still, let these English bores promise to forget that we are alive. Then Marcell can guide them to the landing place, where they will be shot speedily and comfortably. There is no sense in sacrificing the girl. She must be kept here on some pretext."

"The ex-president took thought before he answered.

"I fear we must fall in with our allies' views, friends de Sylva. You and I have to lead a headstrong army. That little Hercules of a commander is stubborn as a mule—a mule that has the strength and courage of a wild boar. The younger man thinks only of the girl's safety. He, at least, will not consent to leave her. Both, backed by their crew, will not scruple to sacrifice us if their interests point that way. Trust me to twist them into the course that shall best serve our own needs. I am now going to tell them that you approve of their plan."

"The long day was slowly. The heat was intense. Even the hardened sailors soon found that if the atmosphere of the cavern were to remain undisturbed they might not smoke. So pipes were extinguished.

Unhappily Iris answered in French some simple query of the dinner officer. "Thenceforth, to her great bewilderment and Hector's manifest annoyance, she persisted with her complaints and inquiries. To avoid both she expressed a longing for sleep.

When she awoke the ravine was in shadow and the interior of the cave was dark. Her first convulsive sensation was that of almost intolerable thirst. Nevertheless she cried involuntarily for water, and again she was offered wine. She managed to smile in a strained fashion at this malicious humor of fortune.

Hector, who had aroused her by touching her shoulder, fancied he saw the gleam of mischief in her face. "If there is no light in our plans," he said, "we should be on the island within five hours. We have everything thought out as far as may be a view of the unknown. At any rate, Miss Yorke, if we succeed in getting

"There is food there and guns in plenty."

they have avoided Grand pere because it is believed that a landing is highly dangerous if not quite impracticable. My friend Marcell, a fisherman, discovered by accident the only safe means of reaching the north which winds round the island. Happily, the wretch who betrayed the mission of the Andromeda did not know the secret of my refuge. And I see now that the governor must be convinced that I am still hiding among the cliffs or your vessel would not have appeared off South point this morning. No; there must be no smoking as yet. In this clear air the slightest cloud might be seen rising above the rocks from within."

Marcell reappeared at the entrance. With him was another man, whom Hector remembered seeing when he was banished from the ship with Iris. "Ah! I was not mistaken," went on De Sylva. "Here comes news of the launch! They have signaled for it across the island."

Marcell entered the cave with an expressive gesture, for long habit had almost robbed him of his native vivacity. His companion, Domingos, climbed the opposite wall of the ravine and stretched himself at full length in a niche where there was room for a man to lie. Some tufts of rough grass grew there in sufficient density to conceal his head while he peered between the stalactites. They could see him quite plainly, but no one wanted to speak. Though the unceasing wash of a heavy swell against the rocks would have drowned the noise had they shouted in unison, there was no need to tell any one present that a very real and dangerous crisis had arrived.

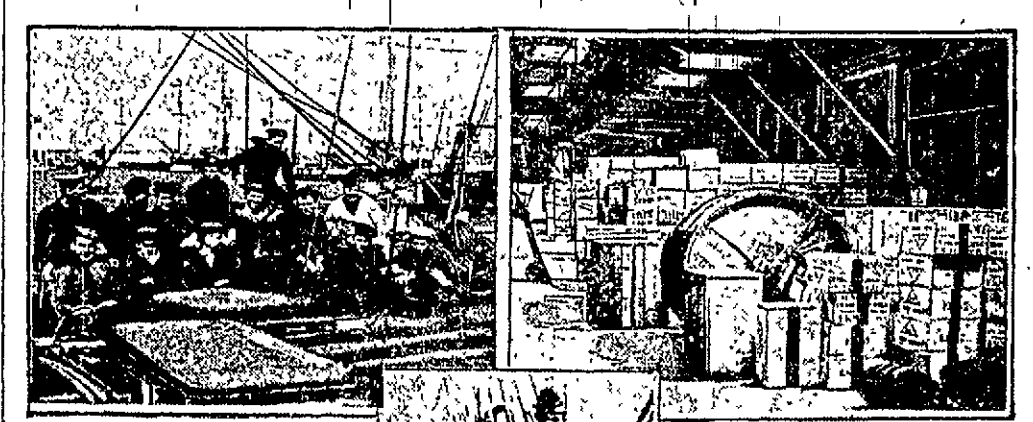

The slow change in the direction of Domingos' gaze showed the approach and passing of the hostile vessel. It was evident that a long wait was made for the launch to come to the wreck, or when some fragments remained above water. Still, curiously enough, it was impossible for those on board the launch to reach the ship's gun, where the word "Andromeda" twice was bellowed on the sharp cutwater, was hidden by the jutting rocks on both sides of the cleft.

At last Domingos turned his head slightly and gave them a reassuring little nod. He said something, which De Sylva translated.

"They have a photograph of the

CAPTAIN SCOTT IS ABOUT READY TO START IN SEARCH OF THE SOUTH POLE.

LONDON, May 25.—Captain Scott's expedition is about ready to sail for the south pole. The work of loading the Terra Nova has been completed, and the launch vessel is only waiting for some new instructions before starting on the long voyage. Lieutenant Campbell, first mate of the Terra Nova, has charge of loading.

CREW OF THE TERRA NOVA.

week," he said, "and are now steaming through the waters of the anchorage on the west side of the island. Most fortunately, they do not seem to be aware of your drifting boat."

"Then we added, with a confidence that was so incongruous with his unkempt appearance and tattered garments: 'If the convicts permit, the men may smoke now. In another hour the tide will be out and we may make history. Who knows?'"

PROVISIONS FOR THE LONG TRIP

GREEN ROOM CHAT.

THE SOISSON.

While the "Count of Monte Cristo" proved one of the best plays yet offered by the Howells-Kelth Stock Company, the management promises something equally interesting this afternoon and evening when the Egyptian melodrama "The Slaves of the Orient" will be presented. There are four acts to this production and each succeeding one more interesting than the one before. In "The Slaves of the Orient" Edward Lofler, the leading man, plays the role of an American naval officer and the story woven about his love for the Egyptian's wife and a thrilling rescue from the harem furnish splendid opportunities for all in the cast. Leroy Kenneth as the Dervish boy will see that the comedy end is well taken care of.

In addition to a splendid selection of plays for presentation, the Howells-Kelth company is putting on a bill of specialties that is far above the average. This week the headliner is "Shorty" Edwards, a Celtic Lilliputian whose specialty alone is worth double the admission price. "Shorty" last night repeated his big success of the night previous and is making new

Scene From "Slaves of the Orient."

friends night along. Besides his diminutive size, Edwards has cleverness and ability to back him up. The hypnotic performances of Leroy Kenneth continue to astound while the specialties of Ethel Desmond and Will J. Dyer continue to score hits. Murphy and Matlow also score.

Following the custom inaugurated at the beginning of the season presents will be given the ladies attending this evening's performance. The Wednesday evening attractions are gaining in popularity and the girls are appreciative. Owing to a previous refusal the Howells-Kelth company will not appear Friday evening, but come back strong Saturday matinee and night with a rattling western melodrama "Across the Desert." Next week an exceptionally strong bill will be presented.

The Howells-Kelth company is far superior to the average stock company and deserves hearty support. Already it has presented some splendid plays and the future attractions will be up to the high standard that has already been set. The productions are all under the personal direction of N. Alvord. Saturday matinee a box of choice late candy will be given every child who attends.

Absolute Protection For Valuables. Place your securities, deeds, wills, insurance policies, jewels, silverware, etc., beyond the reach of fire and theft. A box in the Safe Deposit Vault of the Citizens National Bank affords you absolute protection and privacy at reasonable rates \$2.00 and up per year. Citizens National Bank, Conneltsville, Pa.

Nature at Fault? The steamer duck of South America loses its power of flight as it matures. The reason is that its wings do not grow as the rest of its body develops.

Read the advertisements carefully.

GOLD DUST is better than soap and elbow grease for pots and pans. It digs deep into cracks and corners and sterilizes everything it touches

There is nothing about the kitchen which collects so much dirt, grease and grime as pots and pans; and there is nothing that will clean them so quickly, easily and thoroughly as GOLD DUST.

GOLD DUST cleanses until the last evidence of dirt has gone, and removes every trace of germ life.

You are probably not aware that pots and pans which are used constantly contain hidden nests of little wigglers—germs of putrefaction and decay. GOLD DUST removes these, because it sterilizes as well as cleans, and leaves your utensils clean, pure, wholesome, safe.

GOLD DUST will work wonders in cleansing and polishing milk cans, pails, bottles and dairy utensils, pots, pans and kettles.

"Let the GOLD DUST do your work."

Made by THE N. K. FAIRBANK COMPANY
Makers of FAIRY SOAP, the oval cake.

Good Bargain Times. Great Opportunities.

For the last half of May, Union Supply Company stores are offering some special bargains in choice lines of women's made-up clothing, wash goods, such as: shirt waists, linen suits, white, brown and other colors. A splendid line of novelties in children's wash dresses, and many other garments for the misses and children; all new, some of them received this week. Special low prices for Decoration Day purchases.

GOOD BARGAINS OFFERED FOR MEN AND BOYS.

The clothing, shoe and hat departments are full of choice bargains. Handsome ready made suits for men at \$10, \$12 and \$15, and stylish outfits for the boys at \$5, \$6, \$7 and \$8. Stylish new, boy's suits, made up especially for us. Stylish hats, derbys and soft hats in all the new colors; straw hats now open. It is a great bargain time and any man or boy wanting an outfit for Decoration Day should hasten to a Union Supply Company store.

ACKNOWLEDGE IT.

Connellsville Has to Bow to the Inevitable—Scores of Citizens Prove It.

After reading the public statement of this representative citizen of Connellsville given below, you must come to this conclusion: A remedy which cured years ago, which has kept the kidneys in good health since, can be relied upon to perform the same work in other cases. Read this:

Mrs. Lawrence Francis, 111 10th St., Connellsville, Pa., says: "Don'ts! Kidney Pills cured me of a severe attack of kidney trouble about five years ago and I have had no return of it since. This remedy has not been used by other members of our family with the most satisfactory results. It never fails to bring prompt relief from backache and kidney disorders. I value Don's Kidney Pills very highly and am glad to recommend them to other persons who may be suffering with any symptoms of kidney trouble." (From statement dated Oct. 7, 1907.)

Confirmed Proof. On Oct. 12, 1909, Mrs. Francis was again interviewed and added the following to her former statement: "The facts in my former statement were correct. The relief I obtained from kidney trouble by the use of Don's Kidney Pills was permanent. I am glad to confirm my former testimony."

For sale by all dealers. Price \$50 cents. Foster-McMillan Co., Buffalo, N.Y., sole agents for the United States. Remember the name—Don's—and take no other.

Revenge. Revenge is a debt, in the paying of which the greatest knave is honest and sincere, and so far as he is able, punctual. But there is a difference between a debt of revenge and every other debt. By paying our other debts, we are equal with all mankind; but in refusing to pay a debt of revenge we are superior.

TO TRY FOR \$10,000 PURSE FOR FLIGHT FROM NEW YORK TO ALBANY.

NEW YORK, May 25.—Charles K. Hamilton is making his final plans for his flight from New York to Albany, June 6 in an effort to win a \$10,000 prize offered by a New York paper for the first man who makes the flight between the two cities in an airplane. Hamilton is confident that he will win the prize. The trip must be made within 24 hours, two landings being allowed.

HOPE OF RESCUE IS ABANDONED.

Eighteen are Believed to Have Drowned in Lake Huron.

BIG STEAMERS CRASH IN FOG

Steamer James E. Wood. Brings To Port Details of Worst Lake Disaster in Decade—Steamer Skerryvore Sunk in English Channel.

Port Huron, Mich., May 25.—Families and friends of the missing eighteen members of the crew of the ill-fated steamer Frank H. Goodyear, which sank Monday morning off Pointe Aux Barques, Lake Huron, after being rammed andships by the steamer James E. Wood, have practically given up all hope of any of the missing party having been rescued.

Dealing but five of the twenty-three men, women and children of the passengers and crew of the Mitchell Transit company of Cleveland, which now lies in forty-seven fathoms of water twenty-seven miles south of Thunder bay, in Lake Huron, the steamer James E. Wood of the Great Lakes line of Cleveland limped into this port.

The two vessels were in a collision in a thick fog early Monday morning, but it was not until the Wood arrived here that the disaster became known.

Two women were among the victims of the disaster. They were both passengers, Mrs. Thomas H. Bassett of Marino City and her daughter, one officer, First Mate Gus Duetch of Algonac, also perished.

The child of the cook on the Goodyear was torn from her father's arms as he struggled to save her and perished. Many of those who died in the disaster lost their lives as a result of being crushed by the great iron hatches of the Goodyear as the two vessels crashed together.

The Goodyear went down almost instantly while the Wood entered and with a six-inch hole in her port bow, succeeded in reaching port.

The collision occurred in a heavy fog which overhung the lake and when the two steamers came together the crew of the Goodyear, which is reported to have been rammed amidships, had only time to seize life preservers, and only a few could jump overboard before the boat began to fill with water.

Twenty Drown in English Channel. Cowes, Isle of Wight, May 25.—Twenty persons were drowned as a result of a collision between the steamer Skerryvore and the German bark J. C. Vinnen in the English channel.

The Skerryvore sank. Only two of the crew of the steamer were rescued, one of whom died a short time later.

The bark put in here, but later left for Southampton. Apparently she was not injured. So far as is known there were no passengers on either vessel.

Slater's New Job. Columbus, O., May 25.—Mark Slater, former state printer, serving four years in the penitentiary on the charge of grafting, has been assigned to a clerkship in the prison postoffice. Slater has about recovered from his nervous breakdown.

\$700,000 FOR EDUCATION.
Colleges at Marietta, O., and Meadville, Pa., Among Beneficiaries.

New York, May 25.—At a meeting of the trustees of the general education board \$682,450 in appropriations for the various educational works which the general education board foster was voted. Of this sum \$533,000 was appropriated conditionally for the endowment funds of eight colleges, \$115,000 for the furtherance of demonstration work in agriculture throughout the southern states and \$31,450 for the salaries and expenses of special professors of secondary education in the several state universities of the south.

Among the colleges to which conditional appropriations for endowment were made and the sum for: Marietta college, Marietta, O., \$60,000; Allegheny college, Meadville, Pa., \$100,000.

RIOTING AT MINERS' STRIKE.
Trooper of State Constabulary Badly Used Up—Mob Is Clubbed.

Wilkes-Barre, Pa., May 25.—Serious rioting and a fierce conflict between troopers of the state constabulary, Sheriff Rhoads and his deputies and a mob occurred at the No. 14 colliery of the Pennsylvania Coal company, near here, and one trooper was badly injured while seven of the mob were smashed by heavy clubs and it is believed some of them were badly wounded.

Heavy reinforcements are now being sent to the mine and the authorities will, if there is further rioting, give orders to take the most severe measures with the rioters.

METHODS USED BY SUGAR TRUST.

In Wall Street Office Described at Heike Trial.

IMPORTANT BOOKS DISAPPEAR

Although Government's Weights on Sugar and Shippers' Weights Were Handled by Clerks Sitting Close Together No Comparisons Were Made.

New York, May 25.—The methods followed in the Wall Street office of the sugar trust by which the company said the government duty on false weights of sugar and the sugar shippers on true weights were described for the first time in the trial of Charles R. Heike, the secretary of the company, and the other defendants in the United States circuit court.

Until the present case the trial has never been followed up beyond the big Williamsburgh refinery of the trust, where the false weighing went on. Prosecutor Stimson called two clerks employed in the Wall Street office. From their testimony it was brought out there was no comparison of the government weight and the real weight for purposes of correction, though the two sets of figures were handled by men sitting less than two feet apart.

John A. Thompson, the first of the Wall Street witnesses, and who has been with the company thirty-five years, was the man who paid the shippers of the sugar. He testified that he got the weights used in his calculations from the city weighers. Before paying the shippers he sent the city weighers' returns over to O. K. D. by Bordenagel, the cashier, at the refinery.

In the case of the merchants being paid on the city weighers' returns Thompson did not see the government figures at all; but he did see them when he paid merchants on the invoice weight, the weight taken at the point of shipment. In such a case, if there was more than 2 per cent difference between the invoice weight and the government weight, he was ordered to report the matter to Bordenagel. Bordenagel, he said, would call him up in half an hour and tell him to go ahead and pay.

"Who directed you to call on Bordenagel about the differences?" asked Dunsen for the government.

"H. O. Havemeyer," the witness replied.

"Did he know anything about these telephone calls?"

"No sir, he did not."

Through the testimony of other witnesses called by the government, all of them employees in the refinery, it was brought out that practically all the books and papers which might throw some light on the fraud were missing from the offices of Bordenagel and Gerbracht at the refinery when a search was made for them and have not been found.

Can Talk to Millions.

For the first time in the history of this section there will be a scientific demonstration of what seems utterly impossible, when the big special train bearing the members of the Chamber of Commerce of Pittsburgh on its tenth trade extension tour makes its stop here.

As has been stated, the American Telephone and Telegraph Company, better known as the Bell long distance system, will have a special service available between cars while the train is in motion.

At all stops the train telephones will have direct connection with a monster net work of lines to homes, offices and industries throughout the country. By calling into service 10,450,023 miles of wire, 5,142,632 stations will be connected with the train, all of which can be utilized by the business pilgrims. The train, with its wonderful scientific telephone appliances, will be one of the features of the tour.

Perfectly Safe

No damage at all to a superior Union Suit. Your morning exercise will cause you no discomfort if you are clothed with this best Union Suits for Men: Because—

The extremely elastic nature of superior fabric permits the garment to respond to every movement of the body without the slightest restraint and comes back to shape when strain is removed. Reinforced seam at shoulder prevents bagging under the arms. Buttons are large and strong and sewed on to stay; crotch button hole is worked through four thickness of fabric to resist wear.

For Stout Men.—Unworn sizes are made over living models insuring proper fit and comfort.

For Thin Men.—Also sized to restrain the bulkiness found in most regular sizes.

\$1.00, \$1.25, \$1.50, \$2.00, \$2.50, \$3.00 and \$3.50

Edgeing Interwoven

Into our sock business: Value and consistence. This Interwoven Sock sells at 25c a pair. A guarantee closes the deal. Follow directions about the return and we'll make good your insurance policy. Everybody can't say that of all guaranteed hosiery, but the make good feature has built our business—Interwoven—our name with consistence.

Soft, Silk Like Solesette in blue, tan, grey. The mercerized finish is not lost in laundering, \$1.

Satin Stripe Self-Color dressy, soft collar shirts. The stripe gives the ultra-fashionable tone; white, tan, grey, blue, cream, \$1.50.

Mohair that has a bit of crinkly crispness to make the collar stay where shaped; white, blue, tan, grey, \$1.25.

Light Weight Flannel for the night when you're caught without a coat. Grey and grey with stripe effects, \$1 and \$1.50.

NAINSOOK PAIR SCRIVEN Elastic seam Union Suits are made of a white striped nainsook, at \$1.50.

D. V. B. Athletic Suits are made of the same in a check. \$1 a suit.

TRANSOCEAN AIR LINE.

German Aviator Says He'll Sail Over From Ireland With Passengers.

Karl Lepa, a German aviator who professes to have made more than 200 ascents in the last two years in Germany and in one of which he was three days and nights in the air with seven men, arrived at New York recently from Linburg. He did not bring his airship with him. He said he merely came to select a site to drop on when he flew across from Ireland. That was all he required now.

In describing his airship Mr. Lepa said that it measured 7,500 cubic meters and the basket where the aviators sat had fifty cubic feet of space for passengers. In his opinion the Atlantic transatlantic is doomed. He expects to make his experiment in April from Valentia, Ireland, to St. John's, N. P., with eight men in the airship, and by next December, he says, there will be an airship carrying seventy passengers flying across the ocean at an average speed of fifty miles an hour.

"Zeppelin's airship has 300 horsepower, and Gross' airship has the same amount, but mine has 500 horsepower, with eight motors," said he. "The airship will rest easily on the water when necessary, but I expect to make the trip across from Ireland to Newfoundland in April, 1,000 miles, without a stop."

HOLIDAY FOR WIVES.

Bishop of London Favors a Fortnight's Vacation Each Year.

The bachelor bishop of London, the Right Rev. A. P. Wainman-Ingram, speaking at Bethnal Green—coming to which place, he said, was like coming to a stop.

It has been the fate of many men of letters to have ill health bearing them down as they struggle on toward literary achievements. Thus best in recent times were Stevenson, Richard Jeffries and J. R. Green. Each of these, it happened, had a high hearted wife to keep him up, even to help him with the actual labor of writing. "The Life and Letters of J. R. Green" shows forth a great and sweet man. They show, too, a wife whose sympathy and fortitude helped to make his accomplishment possible.

In copying the vast amount of manuscript of her husband's books Mrs. Green contracted writer's cramp and was forced to stop using her right hand. This looked like a final obstacle in the way of the invalid, who did much of his thinking in bed and could not write himself. But Mrs. Green set to work at once learning to write with her left hand.

One of her first practice pages, which she was about to destroy with the rest, her husband took quickly and put in his pocket. Years afterward when ill health seemed unbearable and he discouraged himself by feeling that he could not work he used to take out that piece of paper, a living record of his wife's triumph over difficulty. When he saw the painful, patient strokes by which Mrs. Green had learned to write with her left hand he could work on with something near to inspiration.

Poison of the Centiped.

The centipede is popularly supposed to carry a slug on each foot, but I have several times handled one after its head was removed without the slugs producing any result. It is the first pair of claws only that are venomous, being hollow and provided with poison bags like a snake's fangs.

The largest I ever saw was eleven inches in length, a gruesome creature. A bite from one of this size would most likely have been fatal to a man in weak health. The tarantula, though its powers of offense are nothing like those of the scorpion or centipede, is, however, a more unpopular character than either. The horror of these large spiders entertained by many people is curious and unaccountable. I have seen Australian bushmen, who in everyday life scarcely seemed to understand danger, turn white as a sheet at the sight of a small "tarantula," as they called it—Chambers' Journal.

Hoaxing the Latinists.

Perhaps one of the best of the numerous class of sham Latin inscriptions that have appeared some time ago in a Dublin paper. It was in antique "Latin," as follows:

I ambly hucres ago, fortibus es in are. Nobis Tibulo forte trux, so vaticinatus an dux.

This purported to have been found near the site of a church dedicated to the saint known to the old chroniclers as "Uacutus Ambulans."

The "Latin" inscription was in reality an absurd rhyme:

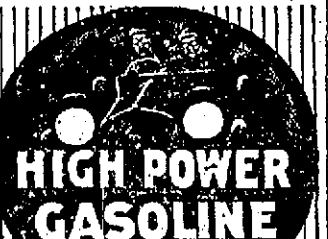

I say, Billy, here's a got Forty buses in a row. No, Billy; this be forty trucks. See you is in "em-pets and ducks.

Marble Made of Gypsum.

J. M. Bickel of Richfield, Utah, has gone to the coast to complete plans for the erection and equipment of a mill for the conversion of gypsum blocks into marble. He has been working on the details of the process for years and now has it completed. It consists of taking a block of gypsum, which is soft and yielding, shaping it to any desired form, and when completed submitting it to a chemical bath, by which any desired shade or color can be imparted to it, the chemical converting the gypsum into marble.

New Tents For American Army.

A new tent, known as the "pyramidal" tent, has been adopted for the use of the regular United States army, the lease of which will commence when the available supply of conical tents shall have become exhausted. It is estimated that the present supply of conical tents is sufficient to meet the demands for a period of eight to ten months.

Make Big Profits in CALIFORNIA

There is more net profit in ten acres in California irrigated lands than there is in one hundred acres in the East. Why wear yourself out for a mere living here when California beckons you with its year-round sunshine, and where crop failures are unknown?

Buy an irrigated farm in the Sacramento Valley, the most famous and most wonderful spot on this continent, on the most irrigated enterprise built by the Kuhn interests of Pittsburg.

Make big profits selling oranges, lemons and small fruit, and live where it never grows cold—where "bad luck" is unknown.

No frosts, no droughts, no snow, no failure. Crop succeeds crop with unfailing regularity, producing more profits with less labor than is possible in any other State in the Union.

Come to the Sacramento Valley, where oranges ripen six weeks earlier than in Los Angeles or Riverside. Come where the climate equals that of Southern Italy—where every man is his own master, and independent—where big money is being made—where the markets are near—the demand for products great—the income sure.

The terms of purchase are easy. The initial cost is \$15.00 per acre, further payments being made year by year, usually out of crop profits.

Let us send you the illustrated book, "California, Now or Never," telling all about it. Ten cents in stamps secures it. Write for the book today—it gives you absolute profits.

H. L. HOLLISTER & COMPANY.
J. H. Simpson, Resident Manager, 345 Fourth Ave., Pittsburg, Pa.

BAD STOMACH.

My Stomach is Going From Bad To Worse.

Yes, it's true: thousands of people cannot eat the simplest meal without having it lie on the stomach like a lump of lead, causing misery, sour stomach and gas eruptions.

And later, when the stomach has gone from bad to worse, there will be longer periods of food fermentation, and then dizziness, biliousness, sick headaches and nervousness.

If your stomach is out of order, if it doesn't feel right after meals, go today and get a 50 cent box of Mi-na stomach tablets. In a few minutes after the first dose, the misery will disappear, and you will be thankful.

Then go right on taking Mi-na for a few days. It will build up the stomach, unclasp the liver, purify the bowels and make you entirely satisfied with your stomach in a few days.

Mi-na stomach tablets are made from the best prescription for stomach troubles ever written. They are sold by druggists everywhere and by A. A. Clarke and are guaranteed to cure indigestion, acute or chronic, or money back.

Roath's Pills are best for torpid liver and constipation. 25 cents.

HYOMEI

Cures catarrh or money back. Just breathe in. Complete outfit, including Inhaler \$1. Extra bottles 50c. Druggists.

HENS IN EGG LAYING MATCH.

One Thousand to Be Entered in International Competition.

More than a thousand hens from the United States and Europe will meet in an egg laying contest at Mexico, Mo., next fall if the plans of T. E. Quisenberry, secretary of the Missouri state poultry board, are successfully carried out. The competition will be held at the poultry experiment station, which will be built at Mexico and conducted under the supervision of the United States department of agriculture.

The proposed egg laying contest will be conducted along the lines of one held a few years ago in Australia. It will last six months and is intended to demonstrate the enormous possibilities of a scientifically conducted poultry business.

GET MARRIED ANY TIME, but send or post order for wedding invitations, etc., and do best work. Samples at this office.
